2023 RESULTS
MISSISSIPPI SOYBEAN YIELD CHALLENGE

The Mississippi Soybean Promotion Board established the Grow It. Show It. Win It. Mississippi Soybean Yield Challenge in the 2022 growing season and just completed a very successful year two production challenge in 2023. Growers from all across the great state of Mississippi had the opportunity to showcase their outstanding production practices in various soybean yield divisions. The purpose of the Mississippi Soybean Yield Challenge is to recognize and reward the top soybean growers in Mississippi and to pass along production information from the contest to soybean producers across Mississippi.

A special thank you to Mississippi State University Extension Agents for serving as Yield Contest Officials. MSPB sincerely appreciates your help in promoting the yield challenge and certifying the yields.
