

## SOIL-RELATED RESOURCES

Click on the below links for the following soil information.

[Soil Texture Calculator–NRCS](#). Use this calculator to determine the soil textural class of a site with known sand, silt, and clay content.

[Mississippi Soil Surveys by County–NRCS](#). Click on the desired Mississippi county to access soil surveys for that county.

[U.S. Soil Series Descriptions–NRCS](#). Enter a soil series name in the block to access its official description and extent map.

[Soil Bulk Density–NRCS](#). Use this link to find the estimated bulk density of a soil with a known textural class.

[Mississippi Land Resource Areas–NRCS](#). Use this resource to find the properties of soils within the six major land resource areas (MLRA) in Mississippi.

[MRVAA](#). This link accesses an article about the Miss. River Valley Alluvial Aquifer. Click [map](#) to see its coverage.
